RESOLUTION: 01-02-24-2019

WHEREAS the Treaty 8 Trappers met at a Trappers Forum on February 23, 24th, 2019 in Wabasca, AB.

WHEREAS there was a presentation by Government of Alberta regarding the spraying of chemicals in our traditional territories and trapline areas.

WHEREAS there are the 3 types of chemicals being sprayed by forestry which include Glysophate (VisionMax) , Triclopy (Garlon XRT) and Imazapyr (Arsenal).

WHEREAS the Trappers have very serious concern regarding the chemical affects on our plants, trees medicines and animals.

THEREFORE it be resolved that the Alberta Treaty 8 Trappers Association requires that the spraying of these three chemicals in the Alberta Treaty 8 territory be banned immediately.
